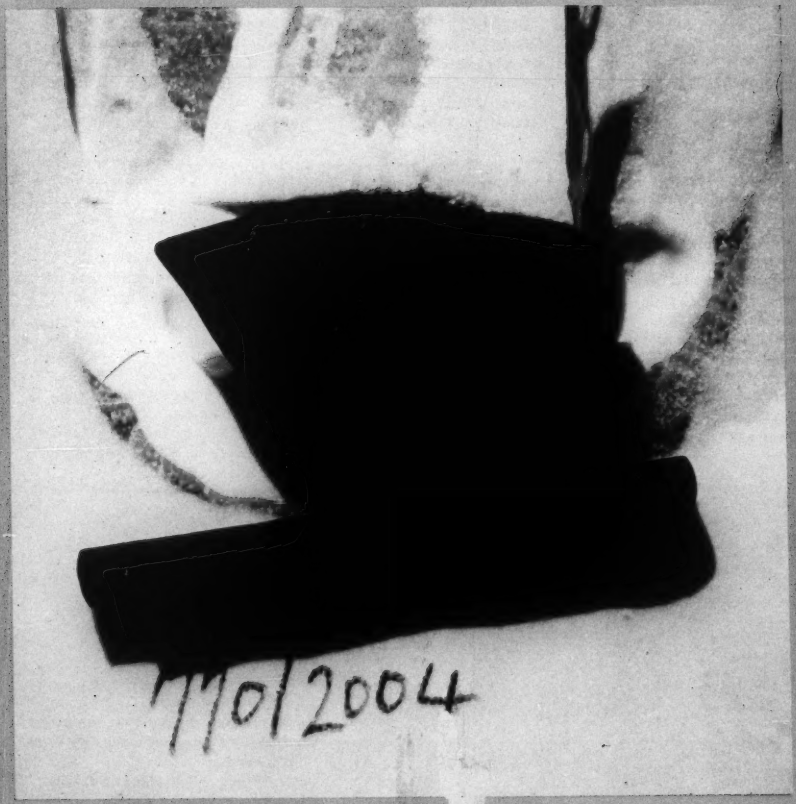
TRANSACTIONS, AMERICAN GEOPHYSICAL UNION
VOLUME 59 1978



1978 SPRING MEETING

April 17-21
Miami Beach

LAST CALL FOR PAPERS

Abstract Deadline January 19

This year's Spring Meeting is in Miami Beach.
Contributed papers in all areas of interest to the AGU are solicited.
To submit abstracts, follow the form given in this issue of E⊕S (pages 14-15). Send original and two copies to Meetings, AGU, 1909 K St., N.W., Washington, D. C. 20006.
The Miami Beach Spring Meeting will feature

- Many special sessions, with all-Union sessions on Ten Years of Deep-Sea Drilling and the Space Shuttle
- A new location, which will draw people from other areas who don't usually make it to our Spring Meeting
- Maximum meeting room space available to us so that everyone will be able to attend that exceptionally interesting session
- Possible field trip into the Caribbean in conjunction with the meeting and perhaps a visit to a research vessel in port
- Miami Beach in the spring, after the crowds have gone but before the heat takes over

Special Sessions

Union
Ten Years of Deep Sea Drilling
Space Shuttle—Plans and Progress
Geodesy
Geos 3—Results of Geodetic, Geodynamic, and Oceanographic Investigations
Geomagnetism and Paleomagnetism
Frontiers in Geomagnetism and Paleomagnetism
Pre-Mesozoic Plate Motions
The Deep Oceanic Lithosphere (cosponsored by Oceanography, Seismology, and Tectonophysics)
Hydrology
Geochemistry and Sediment of the Amazon River and Its Plumes—Results From Alpha Helix Expedition 1976-1977 (cosponsored by Oceanography)
Groundwater Effects of Power Production Activities
Soil Water and Plant Aspects of the Unsaturated Zone Controlling Groundwater Recharge (organized by Shlomo Neuman and Fred Molz)
Oceanography
Dynamics of Shallow Seas
Planetology
Volcanic Processes in and on the Terrestrial Planets (cosponsored by Volcanology, Geochemistry, and Petrology
Seismology
Earthquake Prediction
Understanding the Earth
Computer Applications in Seismology
SPR: Cosmic Rays
Interplanetary Particles—10^9 to 10^{21} eV (cosponsored by SPR: Solar and Interplanetary Physics)
SPR: Magnetospheric Physics
Plasma Flow in the Magnetosphere
Micropulsations
SPR: Solar and Interplanetary Physics
Solar Atmosphere
Tectonophysics
Subduction Beneath South America (cosponsored by Seismology)
Volcanology, Geochemistry, and Petrology
Evolution of the Caribbean Region: Geochemical Aspects
Carbonate Petrology and Geochemistry
Chemical Changes Associated With Rock Deformation
Nature of the Lower Continental Crust
Oxygen Fugacity in the Earth's Interior

E⊕S SUBJECT INDEX TO VOLUME 59
